Dr. Walter Fain

Occlusal Disease Part Two

\$40.00 per person 2 CE hours

reservations required prior to 7/6/2017

This is a follow up on a July 2014 program "Could this be related to their bite? Diagnosis of Occlusal Disease". That program centered on problems associated with the teeth-sensitive or painful teeth, cracked teeth, wear, and abfractions. Part two will include an update on cracked teeth but will center on problems associated with the periodontal structures- accelerated bone loss, mobility, tooth migration, and recession. Many of the generalized cases have 20 year follow up and the localized cases will cover a new approach adopted in the last three years.

Walter Fain

Dr. Fain grew up in Knoxville, graduated from the University of Tennessee and has practiced here for over 40 years. He has attended thousands of hours of continuing education courses including over 500 hours at the Pankey Institute as a student and as a visiting faculty member. He has presented programs at the state and local levels and is an alternate delegate to the American Dental Association.

Notes from the President

Vicki Guffey

Dear Colleagues,

Don't you just love this time of year? The beautiful East Tennessee weather and the longer days of summer offers more opportunities for relaxation, vacation adventures, and time with family. As you make you plans, I encourage you to include our summer SDDS meetings. These are a great way to learn, share ideas, and get to know your colleagues better.

We kick off the season on July 13th with Dr. Walter Fain who will be sharing his vast knowledge of Occlusal Disease Be sure to register early and invite someone else.

I am looking forward to seeing you at the Downtown Marriott.

Sincerely,
Vicki Guffey

The Second District Dental Society and the Frank Bowyer committee made a \$5000. donation in memory of Dr. Frank P. Bowyer to the Tennessee Dental Association Foundation on May 18, 2017
