SUMMER STUDY CLUB "OCCLUSION CONTINUUM"

The Second District and Oral Arts will host the last of three summer meetings at Buddy's Banquet Hall that focus on the different theories of occlusion and how to treat TMD. Dr. H. Clifton Simmons presented What Every Dentist Should Know About TMD and Anterior Repositioning Appliance Therapy for TMD in June, and Dr. Ben Stroud presented Basics of Neuromuscular Occlusion in July. Both gave exceptional presentations, making the summer study club a huge success. In addition, participants of the Occlusion Continuum Summer Study Club, to include Second District general dentists and specialists, will choose two local candidates for an extreme makeover involving various diagnosis of occlusions as well as other dental and/or facial abnormalities. Please join us at the General Membership meetings in January & February for a progressive update on the dramatic changes that will take place and the expected outcomes.

THANK YOU TO OUR SPONSORS

WE APPRECIATE THEIR SUPPORT AND THEY APPRECIATE OUR BUSINESS!!

Oral Arts, Delta Dental, Tennessee Department of Health, Tennessee Dental Association, and Am South Bank are among those who donate money, time, and effort to our programs each year. This is an opportunity for us to extend our gratitude to each of them for their continued support. They help make the Second District Dental Society's Annual Programs a success.

It is especially a good time to thank Oral Arts Dental Laboratories for their most recent sponsorship of the Summer Study Club Occlusion Continuum, among other upcoming program events. In addition, we would like to share the following information.....

In the first few weeks of the new Executive Director's employment with the Second District, it was determined that due to the age of our current computer system and virus intrusions, she would need an updated computer system. Recognizing the costs involved for our Society and desire to build an even stronger relationship with our District, Oral Arts purchased a new Dell computer system with a flat screen monitor for use by the Executive Director.

This is considered above and beyond the expected level of sponsorship. Therefore, we would like to extend a special thank you to Oral Arts and specifically Jim Gamble, Continuing Education Director for Oral Arts Laboratories, for their continued support of our programs and the Second District Dental Society.

You may receive contact information for any of our sponsors through Cynthia Davis, Executive Director to the Second District Dental Society.
