SECOND DISTRICT DENTAL SOCIETY

Annual Program
2019-2020
Greetings Second District,

It's an honor to serve as the President of Second District. Thank you for your confidence in electing me. I would like to acknowledge and thank the Executive Committee and Diane Landers for all the hard work that they put into making the Second District such a great organization.

In keeping with the Second District’s legacy of providing great continuing education, Dr. Gotcher and Dr. LoCascio worked together to prepare a wonderful line-up of speakers and topics for the 2019-2020 programs. There will be something of interest for every member of your dental team.

Once again, our great corporate sponsors have made it possible to offer quality continuing education at a reasonable price. They even allow us to offer the April meeting at no charge to our members. Please thank our sponsors at the Second District meetings and when you see them in your office.

Our Dental Society continues to be one of the strongest and most active districts in Tennessee. Thank you to all of our members for your continued support of organized dentistry. I have truly enjoyed all the fellowship, friendship, and wisdom I have received from this group and I look forward to another great year.

Sincerely,

Brad White
2019-2020 DENTAL SOCIETY OFFICERS

Dr. Mike McCoy
Ulcers, Ulcers Everywhere! What Can We Do Doctor?
$40.00 per person  2 CE hours
reservations required prior to 7/10/2019

One of the most common and perplexing pathologic entities is the oral ulcer. These ulcers can be singular or multiple; large or small; painful or painless. They can be similar in appearance to one another and yet can vary tremendously in the etiology and thus their treatment and ultimate prognosis. The ulcers can be infectious like those of a viral, fungal or bacterial origin. These ulcers can start on the skin and spread to mouth or start in the lower GI tract and ultimately appear in the oral cavity. In this program we will clinically review several of the different ulcerative lesions with similar presentations but with unique origins. We will also discuss different diagnostic tests to differentiate these ulcerative lesions. In conclusion we will discuss the various treatment regimens and the ultimate disease prognosis of each.

J. Michael McCoy, DDS, FACS received his DDS from West Virginia University in 1973. He then completed his Oral and Maxillofacial Pathology residency training at the Medical University of South Carolina in Charleston followed by fellowship training at both the Armed Forces Institute of Pathology/Walter Reed Army Medical Center and then at Emory University Medical Center in Atlanta. Dr. McCoy followed this with a residency in Oral and Maxillofacial Surgery at the University Of Tennessee Graduate School Of Medicine in Knoxville. Dr. McCoy is board certified in both Oral and Maxillofacial Surgery and Oral and Maxillofacial Pathology. He is currently a Professor of Oral and Maxillofacial Surgery, Pathology, and Radiology with the University of Tennessee Graduate School of Medicine and director of in-patient hyperbaric medicine at the University of Tennessee Hospital System in Knoxville, TN.

Steven Herzog  
Mastering Communication With Your Patients  
$40.00 per person               2 CE hours  
reservations required prior to 9/11/2019

Virtually every business requires personnel interaction with other people. This certainly doesn’t change for those in the medical or dental field. More today than ever we are relying on fewer people to ‘do more’. Unfortunately, this can sometimes come at the expense of person to person communication. Understanding the psychological ‘basics’ of human communication is key for the growth and success of any business. This evening session will cover proven techniques that can lead to more effective interoffice, intraoffice and patient communications.

Steve Herzog, an authorized licensee of Sandler Training bringing over 41 years of engineering, direct sales, sales and marketing management to companies world-wide. Steve is a former corporate Executive Vice-President of Sales and Marketing who brings a wealth of experience to his training sessions. Steve earned his Bachelors of Science degree at the State University College of New York at Buffalo in Industrial Engineering. He also holds a Masters of Business Administration from Niagara University.

Having sold to fortune 100 companies as well as to small businesses over the last 32 years, Steve is an experienced management professional in not only sales, but in management.

Steve established Sandler Training Knoxville in 1996 and has helped 100’s of business’s and 1,000’s of professionals for over 24 years. Offering powerful and non-traditional client development and retention methods, Steve has not only significantly helped grow hundreds of area company’s revenues, but has been instrumental in changing whole businesses to heightened profitability, sales and client success.

The 72nd Annual Earl Henry Memorial Clinic & Luncheon
Dr. Michael C. Fling
Stuff That Matters
Location: The Venue at Lenoir City
7690 Creekwood Park Blvd. Lenoir City, TN. 37772

This is one of the most dynamic, inspirational and motivational seminars offered for the entire team. You will laugh, bend your mind, think deep and be refreshed. Stories, experiences and life lessons are presented in a way that it will elevate you and your team with purpose and meaning. You will have insight into the “stuff” that gives the practitioner focus to improve the culture of your business.

Dr. Fling’s intense energy and passion will allow you to consider the following:

- Learn the 3 factors that every doctor must identify for practice success
- Understand how having clarity can elevate you to realize your dreams
- Understand how a “blind” clarity can destroy your dream and your team
- Is talent really necessary for success?
- Systems run our business and people run our systems- which is most important?
- Recognize the difference between cost and value of the treatment we provide
- Learn the two primary reasons that people do what they do
- Why it is important to understand that “it is not in the knowing, it is in the doing”.
- Learn the one secret that can motivate you to change

Understand the factors that contribute to practice and employee stability.

Dr. Michael Fling is a dentist, an educator, an author and an artist. He says that the secret to his success is “bridging the gap between knowing and doing”. He uses this secret to further the success of those around him by inspiring them to excellence.

He began his career in dentistry in 1976 as a laboratory technician. While maintaining a private practice with an emphasis on aesthetic and restorative dentistry, he has served as Course Director and as a Clinical Assistant Professor in the Department of Fixed Prosthodontics at the O.U. College of Dentistry. He now serves as an Associate Professor and the Director in the Department of Advanced Restorative Dentistry. He is the founder and President of Fling Seminars, delivering stimulating advanced dental education and motivation to dental teams and technicians around the world. He has been named by Dentistry Today as one of the “Top Clinicians in Continuing Education” every year since 2005. He serves at the L.D. Pankey Institute as a Essentials Director and is part of a select handful that has completed the process to earn the distinction as a “Pankey Scholar”. He also serves as a member of their Board of Advisors. He is a member of the American Academy of Restorative Dentistry. His passion is motivating change to improve the quality of life for those he touches.

Dr. Jack Gotcher
Update on Osteomyelitis
$40.00 per person  2 CE hours
Reservations Required prior to 11/ 7/2019

Osteomyelitis may seem like an old topic on an uncommon disease. However, over approximately the last decade, there has been a marked increase in cases of multiple drug-resistant osteomyelitis of the maxilla and mandible. Osteomyelitis can occur after routine surgical procedures such as tooth extraction or implant placement. The disease may progress rapidly and require significant removal of bone and long term IV antibiotic therapy for cure. You may have this disease affect one of your patients after the most routine of procedures.

This talk will explore the microbiology and identification of these infections, as well as case studies showing examples of treatments. Finally, suggestions for early identification and treatment of osteomyelitis will be discussed. We look forward to sharing this important information with you!

Dr. Jack Gotcher practices at the University of Tennessee Medical Center in the department of Oral and Maxillofacial Surgery. He has been in private practice and academia for the past 36 years. His practice involves all of the contemporary oral surgery, with emphasis of trauma, reconstructive surgery, orthognathic surgery and nerve repair surgery.

Dr. Gotcher earned his D.M.D. at Harvard School of Dental Medicine in 1975 and a Ph.D. in anatomy at the University of Utah in 1979. He completed his residency in Oral and Maxillofacial Surgery at the University of Tennessee in Knoxville in 1982. He has been active in several dental organizations including President of the TDA, President of the Tennessee Society of OMFS, and Vice-Chair of the Council on Scientific Affairs of the ADA.

Reception 6:00 p.m. Dinner & Program 6:30 p.m.
Michael Nash, Ph.D., ABPP
The Role of Hypnotherapy in Pain Control
$40.00 per person 2 CE hours
Reservations Required Prior to 2/12/2020

Though often denigrated as fakery or wishful thinking, hypnosis has been shown to be a real phenomenon with a variety of therapeutic uses—especially in controlling pain.

Dr. Michael Nash is a Professor Emeritus in Clinical Psychology at The University of Tennessee. He was Editor of the International Journal of Clinical and Experimental Hypnosis for many years. He has published hundreds of research articles on the nature of hypnosis, and how clinicians can empirically track patient improvement. He also has a practice in Clinical Psychology more generally. He has treated many patients referred by dentists for acute and chronic problems associated with dental treatments, phobias, panic and more generally, smoking cessation, and pain. He is also keenly aware of the challenges faced by dentists regarding patient care. In this presentation, Dr. Nash will describe what hypnosis is, and what it is not. He starts with the science, but quickly moves to patient case examples.

Friday, March 20, 2020      Dr. Ben Alley Lecture
Location: Gettysvue Country Club
Registration & Breakfast 8:15-8:45 a.m. Program 8:45—12:00
Dr. Robert del Castillo
Periodontal Surgery Update; Traditional Surgery vs. Dental Implant Therapy
$75.00 per doctor     $50.00 per auxiliary & staff     3 CE hours
Reservations required prior to 3/11/2020

Advanced technologies available today allow us, as clinicians, to diagnosis, treatment plan and perform implant supported therapy in a more sophisticated and profound way with greater accuracy, lower mobility and in shorter timeframes to meet the demands of our patients.

This presentation will review traditional periodontal therapies including osseous surgery, regenerative periodontal therapies, pocket reduction surgery, the role of aesthetic crown lengthening procedures and connective tissue grafting for recession. The role of the patient’s biotype will be discussed and what effect it plays on long term sustainable esthetics. The value of converting thin to thick biotypes, will be discussed.

Dr. del Castillo will present a rationale as to when traditional periodontal therapy is indicated to save teeth as well as the indications for the extraction of teeth for the purpose of placing dental implants for single unit, multi-unit and full arch scenarios. At the conclusion of the presentation, the attendees should have a better understanding of when traditional periodontal therapy around natural teeth is indicated versus what factors will lead us to sacrifice teeth and replace them with endosseous implants. Finally, the importance of healthy keratinized peri-implant soft tissue and its role in the overall long-term health of the implant will be presented.

Dr. del Castillo received his dental degree and his Certificate in Periodontics from Tufts University School of Dental Medicine, Boston, MA., 1985-87. He is a member of the American Academy of Periodontology and the Academy of Osseointegration. He has served as an Adjunct Clinical Professor in the Department of Periodontics at Tufts University School of Dental Medicine. He has been on the faculty of Maryland Dental School as a visiting guest lecturer. Dr. del Castillo has been a clinical consultant for several global implant companies (Biomet 3i, Zimmer Biomet, Southern Implants of North America and Zest Dental Solutions).

Dr. del Castillo lectures both nationally and internationally on the topics of regenerative therapies and dental implant therapies. Dr. del Castillo has published in numerous peer reviewed journals on regenerative and implant therapy and is on the editorial review board of The Journal of Prosthodontics. Dr. del Castillo maintains a private practice, Limited to Periodontics with strong emphasis on implant and regenerative therapies, in Miami Lakes, Florida.

Installation of Officers
Location: Gettysvue Country Club
Reception 6:00 p.m. Dinner & Program 6:30 p.m.
Dr. Terryl Propper, TDA President
$40.00 per staff and guests
No charge for members with a reservation
Reservations required prior to 4/15/2020

Dr. Terryl Propper, D.D.S., M.S., is the first female President of the Tennessee Dental Association in its 152 year history. It is no surprise, to those who know and have worked with Dr. Propper, that she is deserving of this remarkable honor. Dr. Propper recently retired, as the senior partner of a group endodontic practice in Nashville, where she served as CEO and managing partner. She had been with the multi doctor, multi-location group for 30 years. A TDA member since 1982, Dr. Propper has received numerous awards for leadership and accomplishments in her field. She has been recognized by the TDA with the fellowship award and CE award and the Nashville Dental Society with the Richard Sullivan Award. She received the prestigious President’s Award in 2009 and the Spirit of Service Award in 2013 from the American Association of Endodontists. She was also honored with the Lucy Hobbs Project, Women to Watch Award, in 2013.

Dr. Propper has represented both the TDA and her specialty in a variety of leadership roles in local, state and national associations. Dr. Propper started her career in Knoxville and Alcoa, Tn as a general dentist. She was a member of the Second District Dental Society. She was a 1986 Hillenbrand Fellowship Finalist and eventually sold her practice in Alcoa and moved to Chicago, to accept a position as assistant director of marketing for the American Dental Association. She was recognized for her role as editor of the marketing newsletter Dynamic Dental Strategies; when the ADA received a prestigious Golden Apple Award for that publication.

Dr. Propper has served in every office of the NDS and when elected president in 2001, she was the second female to hold that office in 50 years. She is known as a trailblazer, an innovator, an instigator, a visionary and a change agent. She is fearless and has tireless energy for the success of her vision and she approaches all goals with zeal.

Dr. Propper has been a featured speaker at regional, state and national dental meetings on marketing and management for the past 30 years and a lecturer for the ADA Speakers Bureau and the ADA Success program for many years. Dr. Propper was recently a featured speaker at Women Making Waves on the campus of Tulane University, 2019. Dr. Propper has served in the ADA House of Delegates and the TDA House of Delegates and was a consultant to the ADA Council on Dental Practice. She currently sits on the Board of Directors of the Nashville Dental Society and is a member of the TDA Board of Trustees. She sits on the Tulane Alumni Association Board, the UT Dental Alumni Board and is a past Chairman of the Board of the Interfaith Dental Clinic.

Dr. Propper is well known in the Nashville community for her ability to create a superior experience for her patients, in need of a root canal. Her reputation for managing difficult patients and her nurturing and positive spirit, contributed to her success, during her years in clinical practice. She had a niche market as the only endodontist- who provided her patients with a root canal and a recipe. Dr. Propper is known to be a phenomenal chef and has competed in numerous cooking contests on both state and national levels. She has won cooking competitions regionally and nationally and has competed at the National Beef Cook Off and the Tillamook Mac and Cheese Contest.

She graduated from Sophie Newcomb College of Tulane University and received a DDS from UTHSC in Memphis and a certificate in endodontics and MS from UNC, Chapel Hill. She is a member of the International College of Dentists, the American College of Dentists, the Pierre Fauchard Academy, Tennessee Dental Association, American Dental Association and the American Association of Endodontists.

Dr. Propper is co-founder and chief dental officer of Endodontic Practice Partners The company has created a hybrid partnership model that brings best practices from across the US to individual practitioners. EPP provides practice analytics and efficiencies for specialty practices, overhead control, development of marketing and management strategies and assessment of the practice in totality for endodontic and other specialty practices across the U.S. Endodontic Practice Partners corporate office is located in Brentwood, Tn.
